# **Contents**

## **Preface**

<i>Ad Aertsen and Valentino Braitenberg</i> .....	V
---	---

## **Part One**

### **Anatomical Connectivity**

#### **Randomness and Constraints in the Cortical Neuropil**

<i>Almut Schüz</i> .....	3
--------------------------	---

#### **An Example for Specific Connections in the Visual Cortex**

<i>Zoltán Kisvárdy</i> .....	23
------------------------------	----

#### **A Probabilistic Approach to the Analysis of**

#### **Propagation Delays in Large Cortical Axonal Trees**

<i>Israel Nelken</i> .....	29
----------------------------	----

## **Part Two**

### **Cortical Activity at Different Levels of Resolution in Space and Time**

#### **The Biological Role of Neocortex**

<i>Horace Barlow</i> .....	53
----------------------------	----

#### **Coding and Computation in the Cortex: Single-Neuron Activity and Cooperative Phenomena**

<i>Eilon Vaadia and Ad Aertsen</i> .....	81
--	----

Novel Strategies to Unravel Mechanisms of Cortical Function: From Macro- to Micro-Electrophysiological Recordings <i>Amos Arieli</i> .....	123
Neuronal Population Coding and the Elephant <i>George L. Gerstein and Paul M. Gochin</i> .....	139
Is Spike Frequency the Critical Factor in Recognising the Visual Stimulus? <i>J. Krüger and J.D. Becker</i> .....	161
Independence <i>Horace B. Barlow</i> .....	167
Single Cells versus Neuronal Assemblies <i>Horace B. Barlow</i> .....	169
Neurons as Computational Elements <i>Horace B. Barlow</i> .....	175
Some Quantitative Remarks about the Retina, the Primary Visual Cortex, and Visual Perception in Humans <i>Christian Wehrhahn</i> .....	179
Cells in the Visual Cortex are not just Local Receptive-Field Filters <i>Ulla Mitzdorf and B.-H. Li</i> .....	189
Dynamics of Activity in Biology-Oriented Neural Network Models: Stability at Low Firing Rates <i>Michael Erb and Ad Aertsen</i> .....	201
A Theoretical Approach to the Late Components of the Event-Related Brain Potential <i>Thomas Elbert</i> .....	225
Cortical Information Processing as Viewed from the Mass-Action Domain of Evoked Potentials <i>Ulla Mitzdorf</i> .....	247

Current Source Density Analysis of Spatio-Temporal Fluorescence Maps in Organotypical Slice Cultures <i>Dietmar Plenz and Ad Aertsen</i> .....	253
The Contribution of the Striatum to Cortical Function <i>Jeff Wickens</i> .....	271
Reconstruction and Characterisation of Neuronal Dynamics: How Attractive is Chaos? <i>Hubert Preißl and Ad Aertsen</i> .....	285

## Part Three

### Visual Cortex

Horizontal Intracortical Contributions to Functional Specificity in Cat Visual Cortex <i>Ulf T. Eysel and F. Wörgötter</i> .....	301
Excitatory, Inhibitory and Neuromodulatory Influences in Central Visual Function <i>Adam M. Sillito</i> .....	325
Microcircuitry of Cat Visual Cortex <i>Jürgen Bolz, Mark Hübener, and Cornelius Schwarz</i> .....	367
Principles of Global Visual Processing of Local Features can be Investigated with Parallel Single-Cell- and Group-Recordings from the Visual Cortex <i>Reinhard Eckhorn</i> .....	385
Imaging the Functional Architecture of Cat Area 18 <i>in vivo</i> <i>Tobias Bonhoeffer and Amiram Grinvald</i> .....	421
Blobs or Slabs - is that the Question? <i>Siegrid Löwel</i> .....	441

<b>How Ideas Survive Evidence to the Contrary: A Comment on Data Display and Modelling</b>	
<i>Valentino Braitenberg</i> .....	447
<b>Cortical Maps</b>	
<i>Hubert Preißl</i> .....	451

## Part Four

### Outlook

<b>Views of a Theoretical Physicist</b>	
<i>Gérard Toulouse</i> .....	461
<b>Manifesto of Brain Science</b>	
<i>Valentino Braitenberg</i> .....	473
